

Simple quality assurance for blood temperature during transportation and storage.

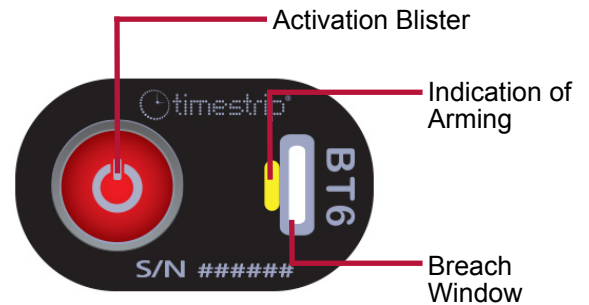

Ease of use: Blood Temp requires no preconditioning or special handling prior to use. Shelf stable, store at room temperature, simple push button activation.

Quality assurance: Accurately monitors Blood Bag temperature in storage and transit within the Hospital. Alarm status is irreversible.

Benefits: Improves compliance as it promotes accountability during transport. It saves blood as it removes the ambiguity of temperature abuse and return stock safely. It also helps to save money as it reduces the loss rate and 8% pays for total investment and conservative 25% reduction doubles your return.

Application is easy as 1-2-3

<p>1 Push the Button</p>  <p>Firmly squeeze the activation button until you feel a pop, then release.</p>	<p>2 Verify Activation</p>  <p>Arming window will change from yellow to dark green immediately. Dark green means activated. If not, go back to step 1 and repeat.</p>	<p>3 Apply to Blood Bag</p>  <p>Remove adhesive liner and adhere activated indicator to the lower third of the blood bag.</p>
