

12 Hour

ELAPSED TIME INDICATOR

100 COUNT

The Timestrip® 12 hours indicator is a convenient reminder to replace a part, monitor an expiry date, maintain a device or carry out a task. Timestrip® 12 hours can be stored inert at room-temperature until it is needed and activated. It is self-adhesive and splash proof, and expires 2 years after the manufacturing date shown on the bag. It is designed to be used in a room temperature environment (average 22°C). It is not suitable for outside use.
