

## FCP™ Descending Temperature Indicator Overview

**FCP provides a clear visual indication that products have been exposed to falling temperatures.**

FCP shows when products have been exposed to below threshold temperatures with an irreversible, color change from green to red. FCP alerts key stakeholders throughout your supply chain if a product has been exposed to a cool or freezing temperature that may compromise quality or efficacy.

### Features:

- Accurate, irreversible color change
- Accuracy independently verified at +1°C

### Ease of Use

FCP indicators are easy to implement, use and maintain:

- Efficient and effective monitoring
- Designed for easy adherence to any product
- Environmentally safe with no toxic chemicals

### Key Specifications

Temperature Capability Range	Within +15°C to -2°C
Commonly Requested Temperatures	+15°C, +2°C, 0°C, -2°C
Temperatures Available Upon Request	+10°C, +6°C, +4°C
Accuracy	+1°C
Shelf Life	1 year
Size	29 mm x 30 mm
Format	Self-adhesive labels
Indicator Display	<b>Unactivated</b> (not triggered): green circle is clearly visible. <b>Activated</b> (triggered): red circle, or any red in the display area.
Color Change	Irreversible
Environmental	Non-hazardous, normal disposal
Activation	Self-activating
Storage	Room temperature
